Lab 1: Introduction to HTML and CSS

Aim: The aim of this lab is to provide students hand on experience of creating web pages using HTML and CSS.

Objective: At the end of this lab, students should be able to design the form given in Figure 1 using HTML and CSS.

Lab task

Create the following web page given in Figure 1 using HTML and CSS. The page could be used to order T-shirts online. Using this form, user can select the size of the T-shirt as small, medium and large. The colors to choose are Red, Purple, Blue and Green. User could also buy extra items such as Cap and Wrist band. Finally user needs to enter delivery address and any comments regarding the purchase. Using the buttons given, user can order T-shirts, search for existing orders, change orders and delete orders.

Due Date: 05 July 2017 at 17:00 P.M.

Submission: Submit the html file named E14XXXLab1.html on or before the deadline. Here XXX is your registration number.
